A Community of Care

Full, enriched lives don't just happen, they're planned.

Fina builds comprehensive, integrated plans specific to each individual built in close consultation with clients and families.

My Progressive Lifestyle

“My Progressive Lifestyle” – a 12-week forward plan of seasonally-based activities built around the wishes and aspirations of each client.

Fortnight Delivery Planning

The Fortnight Delivery Plan converts each client's “Progressive Lifestyle” plan to specific activities, days, times and sequences.

The Fina Code

▶ Life is a gift which is not defined by physical or intellectual disability.

▶ We respect and cherish each person.

▶ We strive to understand – by listening and learning.

▶ We facilitate outcomes.

▶ We are honest, tolerant and transparent.

▶ We are committed to self-determination.

▶ We defend the right to adulthood

▶ We reject violence, exploitation, neglect and abuse.

Fina staff are committed to the Fina Code. They are caring, responsive, motivated and collegiate, selected for their experience, compassion, knowledge and skills.

Fina works in close association with other professionals – including psychologists, physiotherapists, occupational therapists and nutritionists.
